40 MT

250+ MT

From 20–40 MT allocations to programs exceeding 250 MT, Terra Source delivers every order with disciplined coordination, dependable specifications and world-class execution.

BORN ABOVE THE CLOUDS

How mineral-rich highland soils
shape exceptional coffee

THE VALUE OF

ANCIENT VOLCANIC HIGHLAND SOILS

CAMEROON GRASSFIELDS

BUI DIVISION

Nestled in the high-altitude mountain ranges of the Cameroon Grassfields, Bui Division is renowned for its exceptionally mineral-rich volcanic soils.

01

VOLCANIC NUTRIENT DENSITY

Mineral-packed soils nourish slow-maturing coffee cherries, developing exceptional depth and complexity.

02

MICROCLIMATE PERFECTION

Warm equatorial sunshine, paired with crisp mountain night mist, enhances the beans' natural sugars.

03

HIGH-ALTITUDE GROWING

Cultivated between 1,500 and 2,200 metres above sea level for dense, full-bodied green coffee beans.

1,500–2,200 M

ABOVE SEA LEVEL

PRODUCT SPECIFICATION SHEET

COMMERCIAL LOT SPECIFICATION

ARABICA GREEN COFFEE

AVAILABLE QUANTITY

125 METRIC TONS

CUP PROFILE

CAMEROON HIGHLAND ARABICA

01

EXOTIC AROMA

Jasmine and wild florals unfold over deep cocoa, finished with a delicate roasted-hazelnut sweetness.

02

DELICATE ACIDITY

Crisp, wine-like citrus acidity reveals ripe red berries, Meyer lemon zest, and dried dark fig.

03

VELVETY FINISH

A rich, buttery body lingers with dark chocolate, spiced brown sugar, and a refined honeyed aftertaste.

TERRA SOURCE / CAMEROON ORIGIN

Hand-Harvested at Origin. Quality Assured by Terra Source. Delivered to the World.

TERRA SOURCE CORPORATION

Ethical Harvesting · Enduring Relationships

PARTNERSHIP AT ORIGIN

We work directly with farming families across Cameroon's Grassfields, building lasting partnerships rooted in transparency, trust and profound respect for the people whose knowledge, dedication and care bring every harvest to life.

REINVESTING AT THE SOURCE

We reinvest in the future of coffee—strengthening cultivation and processing, supporting responsible agricultural practices and advancing the well-being of the people who grow and harvest it.

This commitment safeguards the authentic origin, integrity and character of every coffee lot while creating lasting value within the communities where its journey begins.

THE TERRA SOURCE MISSION

We believe humanity is entering a new golden age—an era shaped by meaningful relationships, integrity, shared responsibility and a deep love for one's work.

Our mission is to unite people, origins and global markets through trade that honors human dedication, enriches communities and creates enduring prosperity—from the source to the world.

FROM THE SOURCE TO THE WORLD

SAMPLE EVALUATION

EXPERIENCE THE QUALITY FIRSTHAND

Cameroon's volcanic highland coffee reveals its true distinction in the cup. We invite professional roasters, importers and qualified buyers to evaluate its quality, consistency and commercial potential *before* discussing volume supply.

EXPRESS SAMPLE DELIVERY

Receive a 1 kg representative sample of raw green coffee, delivered directly to your roastery for professional roasting, cupping and quality assessment.

BUYER CONSULTATION

Meet with our team in person in the United States or schedule a private virtual meeting to discuss available lots, technical specifications, required volumes, Incoterms, documentation and supply arrangements.

Evaluate the Coffee. Confirm the Quality. Proceed with Confidence.
